

# Being a good friend .....

A good friend should be loyal. You should be able to trust her. If you can't trust a friend then she is not a friend.

A good friend is someone who does not lie and they will help their friend when they need it.

A good friend for me has to be loyal to you. They should not say things behind your back and they should not say mean things to you.

I think a good friend is one who brings up good ideas and recommends them to you, but they should not keep pressuring you to do them if you do not want to.

A friend should always care for you; if you are sad they will try to comfort you. A good friend should be honest and respectful towards me and my other friends.

A good friend is someone who takes care of his friends and includes them in no matter. A good friend will only wish the best for you and your other friends.
